CARRANZA STILL AT LARGE BUT IN PRECARIOUS PLIGHT, LATEST ADVICES INDICATE

Reports of Capture by Revolutionists Not Fully Borne Out.

RECOGNITION NOW SOUGHT

Rebel Government Will Immediately Appeal to the United States to Take Official Cognizance of New Regime; Loan from Troops is Planned.

By Associated Press.

While the advices coming through from Mexico on the revolutionary situation there are fragmentary and conflicting, they cast considerable doubt on the report that President Carranza has been made a prisoner.

A Vera Cruz dispatch, bearing Monday's date, declared the fugitive president of the republic had broken through the revolutionary lines and was standing at bay with 4,000 men at San Marcos.

On the other hand the revolutionary leaders along the border are still claiming that Carranza has been made a captive, naming the place of his capture as a point near Apizaco, in the state of Hidalgo. These reports, however, gave few details of the capture except to declare that the entire country had been taken with the president, three generals, had been executed and another general wounded.

It was added that Carranza had been ordered returned to Mexico City with a consideration that none of his party was to be killed or mistreated. It would appear, however, that Carranza is still at liberty; that the situation he finds himself in, according to Vera Cruz advices, is precarious. It is announced that government troops in Vera Cruz have deserted their commander and gone over to the revolutionists, making that state apparently no longer a safe refuge for the fugitive president.

In addition revolutionary forces were reported closing in on Carranza near San Marcos.

Mexico City dispatches report the nation as quiet, with the troops of General Obregon in full possession. All Mexico, in fact, with the exception of a few localities, is declared to be in the hands of the revolutionists.

EL PASO, Tex., May 11.—Activity of Carranza forces in the region about Tampico which is itself in rebel hands is causing the United States government considerable concern, according to a dispatch from agents of the Mexican revolutionists to agents of the movement here, received today. No details were contained in the message.

WASHINGTON, May 11.—The revolutionary government in Mexico will ask for immediate recognition by the American government.

A movement to this end already has been inaugurated by the revolutionary regime which has its headquarters in the state of Sonora where the revolution first was launched.

Smilgano Gomez, commercial agent at Nogales of the revolutionary government, is reported to have been entrusted with the mission of negotiating a report originating from Torreón says the new regime is to call for a loan of 300,000 pesos to be used for payment of its troops.

EL PASO, Tex., May 11.—Officials of the new revolutionary party in control of Mexico today maintain that the revolution is in its final stages, so far as active fighting is concerned, despite latest reports that President Carranza was making stand after having broken through the rebel lines near Puebla. Statements from the revolutionary leaders at Juarez indicated all efforts now would be bent toward restoration of the country's industry and prosperity.

WASHINGTON, May 11.—With practically all of Mexico dominated by the revolutionists and Carranza reported a prisoner, official interest here today shifted from the military bases of the situation to the expected political developments. Agents of the defacto rulers profess to believe that the establishment of a provisional government to be succeeded as soon as possible by a constitutional regime.

Reports received through official channels, as well as those sent through revolutionary agents, seemed to indicate absence of serious disorders, although the dispatch of a battleship and additional destroyers to southern waters suggested the determination of this government to afford foreign protection at any of its ports.

VERA CRUZ, May 11.—Three Mexican soldiers, federal employees and some officials arrived here last night from Tampico on the steamship Alamo, having fled to this city after General Pallas had taken over control of that town.

AMERICAN Legion Week.

INDIANAPOLIS, May 11.—Governors of six states have proclaimed May 17-21 American Legion week. A drive will be made to obtain one million new members in former service men's organizations.

YOUTH, PEERING IN WINDOW, SOUTH SIDE, SHOT IN THE ARM

Thought He Was Person Who Had Been Causing Annoyance in Neighborhood, One With Gun Says.

R. J. Wilson of South Connellsville was slightly injured last night when he was shot in the arm by Earl Nye, a 19-year old son of K. L. Nye, also South Connellsville resident, who was on the lookout for a man who has caused considerable annoyance in the neighborhood by peeping into windows of homes there.

Wilson declares he was going into the Nye home to make a call and was shot. Young Nye however, says the man first looked into the kitchen window and then walked to the dining room window, where he drew himself up to the sill and looked in. Nye says he called to him to halt and throw up his hands but Wilson ran. The shots did not hinder his getaway but later he sent word to the Nye home that he had been wounded.

The Nye family today made the claim that Wilson had been seen before in the back yard of their home and could give no excuse for his presence there. When the annoyance in the neighborhood continued young Nye determined to keep a lookout for the man. When Wilson entered the yard his actions aroused the watchman's suspicions.

Wilson declares he intended talking to Mr. Nye about the railroad strike.

ATCHESON PLANT OF REPUBLIC IRON & STEEL CO. SOLD

Connellsville and Uniontown Men Organize New Corporation to Operate Long Idle Property.

Connellsville and Uniontown men, organized as the Republic Iron & Steel company, have completed a deal with the Republic Iron & Steel company, taking over the latter's plant at Atcheson, between Smithfield and Point Marion. The price is said to have been around \$200,000, or about the same consideration the late John F. Atcheson, builder of the plant received for it 22 years ago.

The work will be known as Freedom. Coal shipments will begin about May 15 but 60 days or longer will be required in which to repair the 120 beehive coke ovens. The present capacity of the plant is 400 tons of coal per day.

The tract originally comprised 140 acres of Connellsville coke land. There are also about 40 houses ready for employees. The plant is electrically equipped. The mine has been idle for a year and a half, the ovens for a much longer period.

The officers of the new company are J. Fred Kurtz, president; Bruce P. Sterling, vice president; W. D. McGinnis, treasurer; and Ross S. Matthews, secretary. The directors are Bruce P. Sterling, J. Fred Kurtz, W. D. McGinnis, W. A. Furlong, Ross S. Matthews and C. Gregg Lewellyn. Other stockholders are E. C. Higbee, R. E. Photo, J. W. McClaren, C. L. Lewellyn, John F. Short, M. Hayes Liston and James L. Kurtz.

Liston, at present connected with the Champion Gas Coal company and for a long time with the Connellsville Coke company, the subsidiary of the Republic Iron & Steel company operating the Atcheson mine, has been named superintendent.

MRS. HERPICK SELLS

A. Cuneo Takes Over Residence at Snyder Street and Crawford Ave.

Mrs. J. M. Herpick sold her residence at Snyder street and Crawford avenue yesterday to Antonio Cuneo, who with his family will move into the property as soon as it is vacated by Mrs. Herpick and family.

Mrs. Herpick expects to erect a bungalow on the South Side.

WILLIAM D. HOWELLS DEAD

Novelist Succumbs at His Home in New York City Today.

By Associated Press.

NEW YORK, May 11.—William D. Howells, the novelist, died here today.

Musicians Enter Navy.

Stephen B. Bibbel, a well-known guitarist of Everson, has enlisted in the United States Navy and will serve on the battleship New Mexico. He enlisted May 8 and left today for Newport, R. I., to receive instructions. Bibbel was a member of the G. A. R. band of Scottsdale and is one of the most popular young men of that community.

The condition of Enoch Easler, Brownsville youth, a victim of Sunday morning's automobile accident near Hopwood, was reported at the Uniontown hospital today to be much improved. While not yet out of danger the youth, it was said, will probably recover. John Smith, driver of the car, who sustained a broken leg, was also reported to be improving.

CHAUTAUQUA BUREAU DROPS CONNELLVILLE

No Provision Made for Sale of Tickets for Annual Entertainment.

TOO LATE NOW 'TIS SAID

All indications are that Connellsville will have no Chautauqua during this summer. The entertainment which has been coming to this city for the past several seasons with a program of excellent and varied numbers will be missed.

When the chautauqua came to the city last year it was at the time of homecoming celebration for Fayette county's soldiers and the interest was somewhat detracted from it. The chautauqua management and men of the community who had always been instrumental in securing a return engagement thought it would be better not to attempt to have sufficient tickets pledged at that time to insure a program this summer, but instead have a representative come here some time during the winter. This representative did not come.

As a consequence of the failure of the people to give the chautauqua the support desired the city has been dropped from the circuit. The routes of the various circuits have already been completed and Connellsville could hardly secure a berth now. It is the opinion of the men who have been guaranteeing each year's engagement. The fact that the entertainment will not be here this year does not seem to be generally known. There had been some inquiry as to the dates and other persons were asking what would be done on the program. It will be a disappointment to many persons who thoroughly enjoyed the clean type of entertainment offered but the impression of the men who heretofore have headed the Connellsville committee on arrangements is that it is now too late to take action.

The dates of the Conference chautauqua have been set for July 22 to 28, inclusive. Heretofore Conference has had only a five-day program but this year the entertainments will be given for an entire week.

MISS BAKER RESIGNS

High School Teacher to Take Position in Crafton High.

Miss Margaret Baker, teacher of English at the high school, will not return next term. She gave notice of her resignation Monday to take effect at the close of the school term on June 10. Miss Baker has been elected by the Crafton school board as a teacher of English and public speaking in that institution. She had been a teacher in the Connellsville high school for three years. During that time she has made a host of friends in the school and city, being one of the most popular members of the faculty. Miss Baker had already been re-elected to her position here for the next term and the vacancy left by her will be filled at the same time as are all the others in the high school.

Miss Baker will have charge of all plays and other work along those lines in her new position. She has also acted in that capacity at the high school here and at present has charge of the senior class play "The Arrival of Kitty," which will be presented during commencement week.

GAS FIELD NEWS

Roosevelt Well, Grandview, Comes in at 14,750,000 Cubic Feet.

Several new wells in the McKeesport gas field have come in. The Roosevelt well at Grandview is making 14,750,000 feet of gas by actual test. Williams-King No. 3, at Versailles, has a flow of 4,000,000 feet. The Sun Oil & Gas company's well at Versailles has a flow estimated to be 2,000,000 feet, with the drill but eight feet in the sand.

The Farmer-Stentz No. 1 well came in dry. The location is the Lucas lease, near Olympia No. 1 and about half way between the first Dutch and Lamp-Auld well. It was considered one of the very best locations in the field. The McKeesport Gas company's No. 4 well at Grandview is down 2,225 feet.

Whitlock No. 1, Versailles township, promoted by Dickerson Run railroad, came in at noon today practically a duster. The flow was about 250,000 feet. Stock was sold in Connellsville and Uniontown.

TO DRILL 4,000 FEET

Thorough Test To Be Made for Oil and Gas at Gilmore's Mill.

In order that the Gilmore mill territory may be thoroughly tested for gas and oil the Connellsville Oil & Drilling company is planning to sink its first well at that place to a depth of 4,000 feet, said Rockwell Marietta, one of the leaders in the project. "We believe we'll find oil," Mr. Marietta said.

The boilers were moved to the scene yesterday. Most of the equipment is now on the ground and the company plans to be drilling inside of two weeks, barring the unforeseen.

BELL WILLING TO PUT ITS WIRES IN CONDUIT SYSTEM

How Extensive Work Would be Connellsville Not Informing Movement to Have Others Do Likewise.

The Bell Telephone company is willing to place its wires in a limited portion of the city under ground, according to information given to council Monday night by Councilman B. L. Berg, superintendent of streets, who said he had been so informed by a representative of the company. The representative could not say how extensive the installation of conduits would be. Mr. Berg and the mayor asked that the whole of Crawford avenue be included.

Councilman C. W. Utts advocated the passage of an ordinance requiring both telephone companies to get off the streets in the congested sections and the West Penn to concentrate all its wires on a single iron pole system in the streets affected. No action was taken.

Clerk H. G. Mason was instructed to notify W. P. Solson to proceed with the brick veneering of a frame building in North alley and Andy George to carry out an agreement to similarly encase the Moose building in Apple street. The clerk was also instructed to serve notice on a number of persons to lay sidewalks.

The ordinance fixing the salaries of the city solicitors—that of E. C. Higbee, the chief, at \$500 and that of J. Kirk Reaner, assistant, at \$300, were adopted.

The report of Mayor Duggan for April, read at the meeting, showed total receipts from all sources of \$2,108.79, of which \$516.50 was fines and \$1,592.29 license tax.

Council will meet again May 24, at which time the ordinance for the repairing of Crawford avenue will be taken up for action.

DUNBAR TOWNSHIP GRADE STUDENTS' BRAINS ARE NORMAL

Hundred Forty-Two of Upper Classes Subjected to the Otis Scale Test For Determining Mentality.

Gauged by tests made by means of the Otis intelligence scale the 142 members of the eighth grade of the Dunbar township public schools are normal or near normal mentally. The students are put through the tests by W. E. Tietbohl, principal of the township high school at Leisenering.

Whereas tests of similar character made on men entering the Army service during the war showed many cases of men with brains of boys, the students of the township were found to be up to the average. There was not a single one of inferior mind, Mr. Tietbohl said.

INJUNCTION AGAINST ANOTHER I. C. V. COAL COMPANY IS SOUGHT

Water Companies Seek to Prevent Emptying of Sulphur Drainage Into Indian Creek.

The Mountain Water Supply company, the Dunbar Water Supply company, and the Pennsylvania Railroad company today filed a petition in court in Uniontown for an injunction restraining the Onondaga Coal Mining company from discharging its mine waters into Indian creek.

The three companies recently filed applications for injunctions against various other coal companies.

No action was taken on the petition.

Listie Man Wanted.

The police here have been requested to be on the lookout for Dominick Augustine, an Austrian, wanted in Listie, Pa. for larceny. He is described as being about five feet 10 inches in height, light hair and blue eyes and weighing about 170 pounds.

WIDOW HAS SOLE RIGHT TO DETERMINE WHERE BODY OF HUSBAND SHALL BE BURIED

Interesting Decision Involving Powers of Others Rendered in Uniontown.

CHILDREN COME SECOND

In event of the death of husband or wife the one which survives shall have the right to determine where the body of the other shall be buried, according to an opinion rendered in Uniontown today by Judge J. Q. Van Swearingen who ruled that next in order in making the choice of the burial place should come the children, then the parents and lastly collateral kindred.

The petition was handed down in the matter of the petition of Mrs. Elizabeth Sanson to restrain her brothers-in-law, John and Charles Sanson, from interfering with the removal of the body of her husband, Philip Sanson, from Oak Grove cemetery, Uniontown, to the Catholic cemetery at Greensburg. She is therewith given permission to make the transfer.

During the influenza epidemic of 1918 both Mr. and Mrs. Sanson were stricken at Denmore, Westmoreland county. The husband died while the wife was seriously ill and the husband's brothers took charge of the funeral and had the body buried in Uniontown. When the widow decided to have it transferred the brothers refused to permit it and she went into court. The case was heard some time ago.

To Hold Important Meeting Tomorrow Evening; Grand Officers Elected.

A meeting of the members of the Connellsville division of the Baltimore & Ohio Veterans Employees association will be held in the Y. M. C. A. building tomorrow evening at 7:30 o'clock.

A number of important business matters are to be considered, including making arrangements for a union picnic to be held at or near Somerset during the summer.

The grand officers of the association will be in attendance at the meeting.

No Changes on Southwest.

No changes will take place on the Southwest branch of the Pennsylvania railroad when the new schedule is issued on Sunday, May 23. The trains affected are on the Monongahela and Central divisions.

COMMITTEE HEARS WILSON'S ADDRESS TO ATLANTIC FLEET

Throw Tradition to the Wind and Strike Word Prudent from Vocabulary, Men Told, Daniels Says.

By Associated Press.

WASHINGTON, May 11.—President Wilson's hitherto unpublished message to the officers of the Atlantic fleet, given in person on the quarterdeck of the flagship Pennsylvania on August 11, 1917, and bidding them "throw tradition to the wind," strike the word prudent from their vocabulary "and do the thing that is audacious to the utmost point of risk and daring," were made public here today by Secretary Daniels.

The President spoke as commander in chief of the Navy and at a time when the German submarine menace was uncurbed. In laying the text of his remarks before the Senate Naval investigating committee Secretary Daniels said they showed the "bold and vigorous policy the President had outlined for the Navy."

A counter charge that establishment of the North Sea mine barrage was delayed six months because of the opposition of Rear Admiral Sims and the British admiralty was made before the committee by Secretary Daniels in presenting the second part of his reply to the officer's charges that the Navy Department had unnecessarily prolonged the war through failure to cooperate fully at first with Allied naval forces. The barrage, Mr. Daniels added, was the most effective measure that had been taken to check the submarine and was wholly an American idea.

The secretary also charged that Sims had attempted in his testimony to rob the Navy of credit for this project and to give it to the British.

SCOTSDALE PEOPLE MAKE FINE DONATION TO FORMER SOLDIERS

Three Hundred Forty Glasses of Jelly and Jam and Many Other Articles Included.

Special to The Courier.

MARKLETON, May 11.—On Sunday, May 9, the Scotsdale chapter of the American Red Cross brought a delightful entertainment and treat to the ex-soldier patients at the United States Public Health Service hospital, Markleton. The program consisted of: violin solo, Miss Krutchev; accompanist, Miss Olga Stauder; reading, Mrs. Stillwell; harp and violin duo, the Stauffer boys; whistling, Miss Becker; cornet solo, J. Lowell Miles; accompanist, Larry Gordon; clog dance, Thomas Carlton; vocal solo, Mrs. Hilda Fannerty; piano solo, Miss Mary Kennedy; sketch entitled "The Finish of Pete," Joseph O'Hara, Max Stofutzel, William Moran and Aloysius Amend.

The elaborate treat contained 340 glasses of finest home-made jellies and jams, cake and ice cream, four boxes of fruit, 22 cartons of tobacco, tennis, baseball and croquet sets, fishing tackle, 50 new talking machine records, books, magazines, porch pillows and blooming plants, in fact, everything which a crowd of boys could wish for.

The people on the committee of arrangements were Mrs. G. E. Huttie, chairman; Father Lambing, Mrs. W. D. Stoner, Mrs. Martha Workman, Robert Perry, W. J. Conley, Mrs. J. P. K. Miller and James Keegan.

WOMEN AMBITIOUS

Hope to Have Connellsville League of Citizens Largest in County.

Interest is increasing daily in the Connellsville branch of the League of Women Citizens, recently organized. New members are being received and within a short time Connellsville is expected to have one of the largest leagues in the county. The chairman and their committees who are making a canvass of the city to determine the number of women voters in the city and to secure new members for the league and citizenship school, are meeting with splendid success in their work.

The fifth ward committee, of which Mrs. E. C. Higbee is chairman, finished its canvass yesterday. The fourth ward committee, of which Mrs. A. D. Sisson is chairman, met last night at the Sisson home and commenced its canvass today. As previously published, one does not have to be a member of the League of Women Citizens to attend the citizenship school. The second of the citizenship lectures, which are free, will be given Thursday at 4 o'clock at the Carnegie Free library by Mrs. W. W. Ramsey of Pittsburgh and it is hoped that many will attend as possible. Mrs. J. Melvin Grey will preside.

STRIKE SITUATION SAME

Men Still Out at Dickerson Run; Farrell Factory Forced to Close.

Shopmen and teammen of the Pittsburgh & Lake Erie railroad are still on strike at Dickerson Run today. There is little activity, only the work train being run. No statements have been made by either the strikers or the company.

The plant of the American Sheet & Tin Plate company at Farrell, Pa., was closed today because of the inability to procure steel on account of the switchmen's strike. About 2,000 men were thrown out of employment.

M'CUMBER OPENS FIGHT AGAINST KNOX PROPOSAL

North Dakota Senator Challenges Contentions of Pennsylvanian in Speech.

TREATY HELD ONLY WAY

To Bring About Peace With Germany and Legally Settle Questions Arising from War, He Declares; Has Own Plan, Unless to Press, He Says

By Associated Press.

WASHINGTON, May 11.—Opening the fight against the Republican plan to end the state of war by joint resolution of Congress Senator McCumber of North Dakota, a Republican member of the Foreign Relations committee, declared in the Senate today that such a step would bring dishonor upon the nation as it would involve desertion of America's associates in the war.

The senator said he could support neither the House peace resolution nor the substitute of Senator Knox of Pennsylvania. He advocated instead his resolution proposing restoration of commercial relations with Germany but said he realized it would be useless to press this measure where the lines of division between the two factions have been cemented by partisanship and set and hardened by time.

Senator McCumber challenged many of the contentions of Senator Knox made in his opening address last week in support of the resolution. While agreeing that Congress has the power to repeal resolutions declaring a state of war he denied vigorously that peace actually existed.

Only by treaty, he said, can questions arising from the war be settled. "If we are at peace with Germany," he asked, "then why on earth is this solemn farce being enacted in the Senate of the United States?"

Senator McCumber said the peace resolution would effectuate Senator Knox's purpose of separating the League of Nations covenant from the treaty of Versailles.

LODGE TO SOUND KEYNOTE

Massachusetts Senator Chosen Temporary Chairman G. O. P. Convention.

By Associated Press.

CHICAGO, May 11.—Senator Henry Cabot Lodge of Massachusetts, Republican Senate leader, will sound the keynote of the presidential campaign at the Republican National Convention in Chicago on June 8.

The committee on arrangements Monday selected Senator Lodge temporary chairman. Committee members predicted selections of former Senator Albert J. Beveridge of Indiana as permanent chairman.

The name of Senator Borah, candidate of supporters of the Senator Hiram Johnson campaign, was not mentioned for permanent chairman during the discussion, according to Fred Upham, national treasurer.

TURKS GIVEN TREATY

Sultan to Rule Constantinople, With Permanent Allied Occupation.

By Associated Press.

WASHINGTON, May 11.—Permanent occupation of Constantinople, which is left under the sovereignty of the sultan, by a small international force of Allied troops is provided for in the treaty which was handed today to the Turkish representatives at Paris.

An official summary of the treaty has been received in Washington. A similar international guard is provided for the garrisoning of the straits as a guarantee of free passage through the Dardanelles and the Sea of Marmora to ships of all nations.

VAULT DEFIES EXPERTS

Valuable, Worth \$31,000,000 Held Up by "Striking" Time Clock.

By Associated Press.

TOPEKA, Kan., May 11.—Lock experts were called into consultation today at the state treasurer's office but no indication of when the big safe vault containing \$31,000,000 worth of bonds and securities was opened was announced.

The time lock has been on a strike since last Thursday and all efforts to open the vault have been in vain.

BLACK SEA OUTLET

For Poland Provided in Agreement With the Ukraine.

By Associated Press.

WARSAW, May 9.—The military, economic and political convention signed by Poland and Ukraine just before the opening of the drive towards Kiev is understood to have provided for a Polish outlet to the Black Sea.

Such a southern outlet has been a Polish ambition dating far back to the national history.

To Amend Income Law.

WASHINGTON, May 11.—Representative Guy E. Campbell of Pittsburgh has introduced an amendment to the income tax law increasing the exemption for parents of children under 18 from \$200 to \$500 for each child.

THE PARAMOUNT. "THE WHITE DOVE." Starring H. B. Warner, the English actor, is today's feature attraction. The scene is laid in England, and the story is adopted from the novel of the same name by William Locke. Mr. Warner, as the central character in the story, is an austere physician living in a small town with his father, an English country gentleman. The doctor, Sylvester Lanyon by name, lives a quiet life, saddened by the memory of his dead wife whom he remembers as a woman of perfect character. He has begun to enjoy the companionship of his father's ward, Lilla Dierles, and matters seem favorable for the union of the pair, which will give Lanyon's motherless daughter, Dorothy, opportunity to have another mother, a woman who already has come to love her, as she loves the father. This is the condition of things as the story opens, and an old friend of Dr. Lanyon who comes home for the first time in several years is fatally hurt.

THE SOISSON. "EYES OF YOUTH." A powerful production, with plenty of action and with Clara Kimball Young in the leading role, is being shown today. Record breaking crowds witnessed all the performances yesterday and were more than pleased with the picture, which to a brilliant one. Miss Young, provided with one of the best roles of her career, her support is excellent, some of the leading players being included in the cast. A selected comedy is also being shown; "Carmen of the North," featuring Anna Bos. will be presented Thursday.

Katherine MacDonald will appear Monday, Tuesday and Wednesday of next week in "The Thunderbolt," a big production.

Character

That one word can be applied to every piece of furniture on our floors. Before any furniture can find a place in our store it must first possess character. At Aaron's, commonplace, characterless furniture is conspicuous by its absence. Ever since the beginning of this business we have aimed to secure furniture of unusual design, thoroughly well made, and place this furniture within the means of everyone through moderation in price.

Our credit system grants you the privilege of paying for your purchases by semi-monthly or monthly remittances.

Through this system you may enjoy furniture of the better sort. The kind that you'll take pride in in after years. The purchase of furniture should be looked upon as an investment and the poorest investment you can possibly make is in commonplace, characterless furniture that becomes an eyesore in a very short time.

A special department has been established for the convenience of young people selecting their home outfits. The assistance of men experienced in assembling home outfits is placed at your disposal.

TUESDAY EVENING, MAY 11, 1926.

CREDIT GIVEN FOR ONE PRICE REDUCTION.

Specific instances of reduction in the price of commodities are so rare that, when facts and figures are available it is due a patient and long suffering public that the information be brought to the attention of the numberless citizens. In this respect Labor, the Washington organ of the affiliated railroad labor organizations, has performed a distinct public service in disseminating information concerning price reduction, the credit for which is unreservedly given to Attorney General Palmer, the relentless Nemesis of the profiteers.

"At last," says Labor, "some one has discovered where Attorney General Palmer's battle axe has made a dent in the armor of the profiteer."

"Former Congressman R. E. Dufferin, of Ogontz, Pa., has given an interview to the Washington and Philadelphia papers in which he declares that as the result of the attorney general's failure to prosecute bootleggers in Pennsylvania the price of whiskey has dropped from \$1.60 to \$1.00 per barrel."

"It should assume," said the ex-congressman grimly, "that in this particular, the law of supply and demand is asserting itself."

"Dufferin makes the flat charge that the attorney general is protecting the liquor interests with the understanding that the wets will assist him in his fight for control of the national Democratic convention. In support of his charges, Dufferin gives the names of a number of prominent liquor men who have given on behalf of Palmer's candidacy."

Reporting the interview referred to by Labor, the Philadelphia North American quotes officials of the Philadelphia Retail Liquor Dealers' association who corroborate the charges of Mr. Dufferin, and adds this statement:

"At the same time even more startling charges were added by the liquor men. It was asserted that when rum is removed from government bonded warehouses for political purposes it is delivered under guard of government agents."

It is, of course, to be presumed that the "mysterious disappearance" of the contents of divers and sundry warehouses in Southwestern Pennsylvania, including the "Missing Nine" and other magical numbers, have been so remote from the purview of Mr. Dufferin that his allegations have no reference thereto—not even by implication.

Another of the rapidly accumulating evidences of how the Democrats are "going along" with the President in his demand for "a solemn referendum" on the League of Nations is furnished by William Jennings Bryan, "Democratic friend" of the League of Nations, who said, "should join Republican friends of the League and by so doing take the issue out of the campaign and speak peace to war distracted Europe."

The open season for Sunday automobile wrecks has opened in the usual manner by bringing a useful young lives to an untimely close.

The naval warfare on the Potomac has reached the "unrestricted" stage.

Reports of big gaspers are good but the records of sustained production would please the stockholders better.

The Mount Pleasant branch is even more progressive than Washington. It has discovered that the war is really over.

Will the credit belong to the suffragists or to the liquorists? At Louisiana becomes "a perfect 50" at the same time sugar reaches the 50-cent mark?

A "bloodless" revolution in Mexico was too much of an anomaly to last.

With Senator Lodge as temporary chairman of the Republican national convention the country will not be left in doubt as to the meaning of the keynote he will sound.

Legal Notice.

In Re Petition to Satisfy Mortgage given by Henry Shaw, to William Baldwin, and by him assigned to Franklin Baldwin.

In the Court of Common Pleas of Fayette County, Pennsylvania.

No. 47 June Term, 1926.

To Franklin Baldwin, his heirs and legal representatives, or whoever may be the holder or holders of the Mortgage hereinbefore mentioned.

You are hereby notified that on May 3rd, 1926, Althea M. Atkinson, presented her petition averring that she is the owner of a certain piece of land, situated in the borough (now city) of Connelville, Fayette county, Pennsylvania, more particularly bounded and described as follows:

Fronting thirty-three (33) feet on Main street (now Crawford avenue) and running back, preserving the same width, a distance of one hundred sixty-five (165) feet to Orchard alley, bounded on the West by lot No. 77 and on the East by the eastern half of lot No. 68, and being known as the western half of lot No. 68 of the general plan of the borough (now city) of Connelville.

That an unadvised mortgage upon said premises remains on record in the office of the recorder of deeds of Fayette county, Pennsylvania, given by Henry Shaw to William Baldwin, dated April 26, 1888, in the sum of one thousand (\$1000.00) dollars, payable in two (2) years from date, and recorded in mortgage book, Vol. 7, at page 230; and assigned by the administrator of the estate of said William Baldwin, deceased, to Franklin Baldwin, by assignment of mortgage, dated April 7, 1887, and recorded in assignment of mortgage book, Vol. 1, at page 431, and that the period of ten (10) years and more has elapsed since the principal of said mortgage became due and payable, and no payment has been made within said period of either principal or interest, or any part thereof, and praying for satisfaction thereof.

Whereupon said court ordered that a notice of said petition be served by a high sheriff of said county, on said Franklin Baldwin, or his heirs and legal representative, or whoever may be the holder or holders of said mortgage, if they are to be found in said county, and having known residence, and if not, then to give public notice by advertisement requiring them to appear in said court on Tuesday, June 22, 1926, at 9 o'clock, A. M., to answer said petition and to show cause why the proper decree should not be granted, and said mortgage, satisfied of record. J. J. Sheriff, Sheriff of Fayette County. F. D. Munson, Attorney for Petitioner. May 3, 1926. 11may11-tues

WARM DISCUSSION IN PERRY TOWNSHIP OVER BOND ISSUE

Advocate of Loan Tells Why it
Should Be Approved
May 15.

ANSWER TO OPPONENTS

Special to The Courier
PERRY TOWNSHIP, May 11.—Discussion of the proposed bond issue of \$170,000 for a vocational high school and other school facilities in Perry township is on in full swing and as the people become better informed as to the purpose and need which led the board to ask the people to vote on this issue the discussion is becoming calmer, and the strongest opponents are being brought nearer to the facts which are pertinent to the issue, and are spending less time on matters foreign to the bond issue. Those who favor the issue, too, are being compelled to stick to the text and give facts. Thus people who want to know have a change to judge.

It appears that at first the only thing seen by many of the citizens was the dollar sign with 170,000 after it and the needs of the school children—the future citizens—of the township were entirely overlooked in the commotion stirred up by the sight of the dollar mark so closely associated with the 170,000. Yet with the dollar mark taken away and the two O's removed these figures represent the number of school children in Perry township for whom the board is trying to provide the school facilities required by the law of Pennsylvania, and whom the board believes—and with them at least 95 per cent of the parents of school children, we should say—should have the best opportunity to go out into life equipped to fight their way successfully.

The Perry township of the future is to be considered as well as the voters of the present. A \$100 bond per pupil doesn't look nearly so formidable or impossible when you think it out, and realize that it is not only for the present 1,700, but for every other 1,700 in the next 50 years that the present improvements are sought.

Thousands Have Kidney Trouble and Never Suspect It

Applicable For Insurance Often
Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the companies in an interview of the subject, writes, in an interview of the subject, makes the astonishing statement that "the reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are rejected do not even suspect that they have the disease. Dr. Kilmer's Swamp-Root is on sale at all drug stores in bottles of two sizes, medium and large. However, if you wish direct to test his great preparation send ten cents to Dr. Kilmer & Co., Singanton, N. Y. for a sample bottle. When writing be sure to mention the Connellsville Courier.—Adv.

MOTHER!

"California Syrup of Figs"
Child's Best Laxative

Accept "California" Syrup of Figs—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach and bowels. Children love its tasty taste. Full directions on each bottle. You must say "California"—adv.

Those who are advocating the bond issue offer these facts:
Perry township must have at least three new rooms at Star Junction.
Perry township must have at least three new rooms at Perryopolis.
Repairing and remodeling must be done at several of the present buildings to bring them up to the requirements of the laws of Pennsylvania, and these things cannot wait.

This building and repairing can be done only in one of two ways, either by a bond issue for permanent buildings, and the cost spread out over a number of years allowing those who pay for them, or, by raising the millage to the limit now, putting up temporary buildings to meet our present necessities, so we can escape this law, and creating a sinking fund out of the taxes now on our natural resources, so that when they are gone and we do have to put up real schools we will at least have a little help for the farmers and others who will have to build these schools. And by bonding the district for two per cent, which the board is privileged to do by law, which looks more sensible?

With the removal of our coal goes much of our assessed valuation, but the plants which are now mining our coal will also mine coal in the adjoining townships, and the people who work at these mines will continue to reside in Perry township and attend our schools. Why not build our schools while we have this help?

Even in the remote future when

DOCTOR ADVISED CHANGE OF CLIMATE

Run Down and Lungs Hurt—Stayed
Home and Gained 25
Pounds.

"In November, 1911, I had a severe cold and a gripe, which left me with a bad cough and my lungs and shoulder blades hurt so I could not sleep and I finally had to give up my job and was ordered to change climate. In April, 1912, I began taking Milks Emulsion. On the second bottle I could see a change. My appetite was better and I commenced to gain strength and weight. Now, (August 22, 1912) I have used 23 bottles, have increased 25 pounds in weight and believe I am permanently cured.—W. F. Bourland, Route 5, Wolf City, Texas.

Mr. Bourland was fortunate in coming to use Milks Emulsion when he did. A run-down system invites disease. Milks Emulsion costs nothing to try. Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and purges. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to those whose sickness has weakened, and is a powerful aid in restoring and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. Truly wonderful for weak sickly children.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles at home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.50 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.—Adv.

MOTHER NATURE MAKES HER GIFT

Compounds in Her Wonderful Laboratory
Ingredients For
Tanlac.

Of all the maladies that afflict humanity, chronic dyspepsia is probably the most prevalent. The most skilled specialists have been unable to cope successfully with this almost universal malady, but Mother Nature herself, in combination with the best skill in chemistry has compounded in her wonderful laboratory the most marvelous remedy ever discovered for this ailment.

Hours might be consumed in describing the sufferings mentally and bodily of the victims of chronic dyspepsia, and their absolute failure to heretofore get relief, said the Tanlac man. A morbid, pale, whitened, and melancholy condition of mind aside from the nervous physical suffering, is the usual condition of the average dyspeptic.

Tanlac, which seems to almost instantly correct this distressing condition, and to make you like old fashioned, red people—strong, sturdy, and well—is now sold here by Reighley's Pharmacy, Connellsville Drug Store, Fred H. Harmsen.—Adv.

CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, imitations and "Just-as-good" are but experiments, and endanger the health of children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other narcotic substance. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. every plant is worked out, Perry township will retain much of her present population for many farms are being bought by the foreigners and with the decrease in the size of the American family, the untrained American farmer will surely be crowded out, for the foreigner has the help.

It was intimated in a speech at Perryopolis that if any one who had property was for this bond and wished to pay a higher tax the assessor could accomplish the same financial results when he came around to make the next assessment by increasing it. That threat need carry no weight whatever with friends of schools.

Perry township citizens who think more of their children (for the children of others) and of those who will live in Perry township after the present generation have permanently left here than they do of personal grudges, prejudices, or dollars will think pretty seriously before they cast a vote against the bond issue on May 18.

Ohio Man Is Modern Wizard

Discovers magic ether compound which loosens a corn so it lifts right out

Good news spreads rapidly and druggists here are kept busy dispensing freezons, the ether discovery of a Cincinnati genius, which is said to loosen any corn so it lifts out with the fingers.

Ask at any pharmacy for a quarter ounce of freezons, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so grieved that it lifts out without a particle of pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.—Adv.

Itching, Irritating Skin

Worst Forms of Skin Trouble Quickly
Relieved by Inexpensive
Treatment.

If you suffer with any skin trouble and the itching seems unbearable do not think you have to use some greasy unpleasant ointment to get relief. Try HOKARA, a pure and pleasant antiseptic cream—guaranteed to contain no grease and has cleansing ingredients which vanish into the marked skin to do their healing and does not stay on the skin only to look bad and soil things.

HOKARA's power to relieve quickly any irritation of the skin and make it soft white and beautiful might be called miraculous. Minor skin troubles such as pimples, blackheads, acne, barber's itch etc. seem to disappear magically and HOKARA with its potent healing qualities is a successful treatment in ending chronic skin diseases like salt rheum or eczema. It is possible for anyone to try HOKARA and be convinced of its merit—simply because A. A. Clarke Druggist is selling a liberal sized jar for only 15c. It is sold on a guarantee of satisfaction or money back.—Adv.

MISUNDERSTANDING OVER FAYETTE FIELD ADJUSTED

Everything Now Moving to Successful Opening Game Saturday.

PRACTICE AT TROTTER

Buffeted about for the past few days like a ship without a rudder, due to the uncertainty of a playing field the Connellsville Independents are now riding on a smooth sea toward the opening game next Saturday with the Turtle Creek Athletics, at Fayette Field. Through a misunderstanding and due to being misinformed as to the proper authorities to consult, regarding the use of Fayette Field, the Independents were in a quandary, as to the opening. The matter of the use of Fayette Field was easily adjusted Saturday when one of the officials of the Connellsville Baseball Club and an official of the Baltimore & Ohio Baseball league got together and after the situation was fully explained as to the predicament that the Independents were placed in, the permission to use the field was cheerfully given.

With the opening game but a few days off the Independents will now get down to team practice. Individually every player is in the pink. Chip Francis who is delegated to lead the team this season wants every player to be at the Trotter field this evening at as near 5 o'clock as possible, so as to get the much needed team work. The team is using the field at Trotter so as not to interfere with the work that is being done to get Fayette Field in good condition for the game on Saturday. On Thursday evening the Independents will play Newt Wilson's Stars at Trotter. This game will be called at 5 o'clock and every player who has been mentioned for the team must report to the field at Trotter on the day and time as stated.

Robert L. Hannam, who was awarded the contract to erect the bleachers, has not lost any time and promises to have all the stands up by Friday. The work on the field itself will be rushed with a vim. This work was started but was halted until the actual permission of the use of the grounds were obtained.

On the opening day it is understood that one of the leading local bands will render music. Such was done in the past on the opening days.

BASEBALL CHIRPS.

This afternoon, as predicted in these columns yesterday, the Baltimore & Ohio Shop team will play the Trotter team a return game. When the B. & O. tossers go on the field today a vast improvement in the playing of the team will be in order. The game of last week was the first the railroaders had. The placing of the players was an experiment. It is said that several of the positions will be filled with other players, taking the place of some who were tried out and found wanting. The game will be called at 4:30 sharp. Attention, Newt Wilson.

At the meeting of representatives of each division of the Baltimore & Ohio railroad, at the Monongahela House, Pittsburgh, Friday, for the purpose of organizing division league teams and planning for the elimination contest and system league games this year, officers were elected as follows: W. W. Wood, Baltimore, chief of the welfare bureau, president; John J. Sell, vice president, and E. W. Mitchell, Connellsville, secretary of the executive committee.

Forty-two representatives from all over the system, including St. Louis, Chicago and New York, were present. Several teams from each division were entered upon the elimination contest list. Among which were: Cumberland, six teams; Baltimore terminal, five teams; Baltimore, three; Mount Claire, one; Connellsville, four; Monongahela division, one; Pittsburgh, one; New York, three; The division league teams will contest for selections for the system league teams of which there will be 17 teams. The elimination contest will start next week. System league games will begin on July 1. F. L. Sheakley

will have charge of the division league games, after which Griffin A. McGinn will manage the system league organization, which will play for the championship title of the entire system. A schedule will be submitted in two weeks by a committee of five, each from the eastern and western leagues.

It has been decided that Eddie Wall, one of the few capable umpires now in captivity, will hold the indicator for the Connellsville Independents in all their games.

Who will mount the pitcher's box for the Independents is a question. Several candidates for this important office are in view, but the selection has not been decided upon.

To meet the cost of the erection of stands it is earnestly requested that those who have pledged their financial support to the Connellsville Baseball club will not delay in contributing their subscription. It would be tough luck to have them only half completed—then bloody for the opening game.

Tonight the board of directors will hold a meeting and all members are asked to attend, as it is a meeting of vast importance.

Tomorrow afternoon the big game between Trotter and the Hostler teams will take place at Trotter. There will also be a reunion of all the old timers who played in the coke leagues of a score of years ago.

This afternoon Leisnering No. 3 will play the Leisnering No. 2 team at the latter place.

BOXING.

The public is now asking itself why should it attend the exhibitions that Georges Carpenter, is giving on his war record. This is in order. How much would one of our boxers get to tour Europe on an exhibition? Did Mike O'Dowd do it when he was a champion after his great war record? No. Why does not Carpenter fight someone instead? After his tour he over his B. R. will be about \$100,000 fatter. Then it will be another quarter million for him for a real bout. Georges does not need a hook and line. The old gent, Barnum, was correct, as usual.

Tomorrow night another delegation of Connellsville sports will be at a Pittsburgh ringside to see the bout between Harry Greb and Tom Gibbons at Forbes Field. The boys will journey over the 10 round distance. The visitors from this city of coke will be "Tony" Butano, "Buff" Butternore, Q. Marietta, George Cochran, Jr., and others.

EX-SOLDIER ASKS YOUR VOTE FOR CONGRESS

James Blaine Werner, Prothonotary of Somerset county, herewith submits his platform as a candidate for the Republican nomination for Congress in the Fayette-Somerset-Greene district, at the Republican primary May 18, 1920.

Legislation embodying practical application of the eternal principles of right that made the American Declaration of Independence the successor of the Magna Charta in the slow but irrepressible evolution of human liberty.

Laws with teeth to stop profiteering and rigid enforcement.

Approval of amendments to the federal constitution by vote of the people instead of state legislatures.

Important legislation by Congress, including declarations of war, to be approved by vote of the people.

Americanism, as measured by the Declaration of Independence and the Constitution.

Free press and free speech to safeguard American ideals.

Law and order.

Industry to produce character and contentment as well as dollars.

Removal of taxes from houses, to encourage instead of penalize the home-builder to help solve the housing problem. Enough other things are taxed to run the government, if the money is not wasted.

Prohibition enforcement law permitting light beer and wines.

Support of Knox resolution declaring an end to the fiction that the United States is still at war.

Protection of personal liberties and restoration of individual rights proclaimed by the founders of the Republic.

Clearer definition of executive power.

Opposition to one-man rule in nation, state and district.

Importation of necessities of life free of custom house charges, to reduce cost of living and profiteering.

Federal judges and district attorneys to be elected by the people instead of appointment by the President.

Adjustment of World War soldiers' pay on basis nearer to that paid for other war work.

No entangling alliances with European nations.

NEWS OF THE DAY AT MT. PLEASANT BRIEFLY RELATED

Borough Loses Chance to Buy Ruder Inn for Municipal Purposes.

CONNELLSVILLE MAN OUTBIDS

Merle Cooper, well-known Young Man, Dies at Memorial Hospital Following Operation; Movement on to Repair Mt. Pleasant-Iron Bridge Road.

Special to The Courier.
MOUNT PLEASANT, May 11.—An announcement was made yesterday by Attorney Edward Kennedy to the borough secretary, Frank Overly, that the borough would not get Ruder Inn; that it had been sold to a private party on Saturday for \$25,000. Mr. Kennedy, whose offer to the borough was \$20,000, bid up to \$21,000 in an effort to hold good to his bargain. It was understood that the building had been sold to Max Levine of Connellsville who would convert it into a business block. The building, situated on Main street, is one of the best in town. It was built by H. J. Jordan and was one of the most modern hotels in this end of the state.

Merle Cooper Dies.
Merle Cooper, 35 years old, son of Mr. and Mrs. A. Cooper of near Laurelville, died at the Memorial hospital on Sunday following an operation. The body was taken home and funeral services were held at 2:30 this afternoon, in charge of Rev. J. E. Hartman, pastor of the Re-Union Presbyterian church. Interment followed in the Greenlick cemetery. With the parents there survive two brothers, John and Roy of this place, and a sister, Myrtle.

Road Needs Repairs.
With large truck trains going through every day the necessity of repairs being made on the road between Iron Bridge and Mount Pleasant is being felt. Fayette county improved the road leading from Iron Bridge to Connellsville and it is understood, had expected that the supervisors and others on this end would do their part. A movement is on foot locally to interest the supervisors of East Huntingdon township to put this road in good repair.

Memorial Day Program.
The committees appointed by the Sons of Veterans to make arrangements for Memorial Day expect to have the program completed at an early date.

TASTE TAKEN OUT OF CASTOR OIL BY NEW PROCESS

Remarkable Method Perfected by Laboratory Experts of Spencer Kellogg & Sons, Inc.

When the doctor says "take castor oil" you need no longer shudder. By a new scientific process all the disagreeable features have been removed from this famous old remedy. Chemists of Spencer Kellogg & Sons, Inc., one of the world's largest manufacturers of castor oil, have perfected a remarkable process by which the taste is absolutely eliminated. Nothing is removed except the taste. Strength and purity are absolutely unchanged. Kellogg's Tasteless Castor Oil settles the question of the best laxative. No pills or drugs are so prompt and thorough as nature's pure remedy, castor oil. That's why doctors always prescribe it. Now you can get in Kellogg's Tasteless Castor Oil a pure, full-strength form that is just as easy to take as a good salad oil. Two sizes, 35c and 65c. At all good druggists. Adv.

SIMCO CRUDOLEUM

EFFICIENT DANDRUFF COMBATANT

Is endorsed by professionals everywhere. The Connellsville Drug Co. and the Broadway Drug Store, Scottsdale, who are the agents, are authorized to return the purchase price if you are not satisfied with the results of using CRUDOLEUM.

There is no secret of what gives it its snap and sparkle, its rich light color and high natural purity. CRUDOLEUM is a high-grade of pure petroleum, that seems to have caught the very freshness of the sand and rocks through which nature has filtered it free from uncombined sulphur and carbon; it is wonderfully cleansing and antiseptic.

You may find many a bottle labeled "Petroleum," but there is only one SIMCO CRUDOLEUM.

The name SIMCO is a mark of excellence, a mark of a dependable firm which is careful to select chemical quality; it is a guarantee of superior product. Just go down to the Connellsville Drug Co. or the Broadway Drug Store, Scottsdale, throw down 35c and say CRUDOLEUM. It will solve your hair and scalp problems. Let us prove to you by actual trial, at our expense if it fails, how this step has helped many others. If your druggist cannot supply you, send us 40c and we will forward you a half pint bottle by return mail. Wm. M. Simpson, Drug Co., Wholesale Druggists, Wilkesburg Station, Pittsburg, Pa.—Adv.

Suggestion for a Camping Trip.
Buy a bottle of Chamberlain's Colic and Diarrhoea Remedy before leaving home. As a rule it cannot be obtained when on a hunting, fishing, or prospecting trip. Neither can it be obtained while on board the cars or steamships and at such times and places it is most likely to be needed. The safe way is to have it with you.—Adv.

Girls! Buttermilk Creates Beauty Overnight

The first application of Howard's Buttermilk Cream will astonish you. It creates beauty almost like magic, but the most wonderful thing about it is the fact that whilst it turns the complexion to radiant beauty and makes red or rough arms snowy white, yet there is not the slightest sign of it; use after application. It actually vanishes from sight and the most notable atmosphere will not produce the least shininess or greasiness of the skin. It is absolutely harmless and will neither produce or stimulate the growth of hair. With a twenty-four hours this wonderful combination called Howard's Buttermilk Cream will work a marvelous transformation. C. Roy Hetzel, Connellsville Drug Co. can supply you. Manufactured at Buffalo, N. Y., by Howard Bros. Chemical Co.

HEADRESS IS FAD

Wormment of Hair Is Important, French Modistes Believe.

Makers of Gowns Take Into Consideration What Is to Be Worn on the Head.

Headresses are receiving more and more attention from the greatest French dressmakers. In the past, writes a Paris fashion authority, the woman who wanted to complete her evening toilette by a headress was compelled to search through the shops for a suitable one, but this was not always easy to find. Often the only reward for such a shopping trip was the finding of a hair ornament that did not in the least carry out the idea of the costume.

Reboux evening hat of black tulle and Chantilly lace. High Greek collar supported by a headress, consisting of embroidered bands done in jewels and gold threads.

Now the maker of the evening gown designs a headress to accompany it, so that it is no longer a matter of wearing anything that one may happen to pick up in a shop. As a result, the headress is becoming more and more important.

PESKY BED BUGS

Bedbugs lay an average of seven eggs per day. Under favorable conditions they hatch in five days of which two-thirds are females. They are very hard to kill and are capable of living in great numbers. How many bedbugs would you have in a year if you left one female or egg undisturbed for one year? To get the pesky bedbug, you can really see how necessary it is to use a preparation that will kill the eggs as well as the live ones. F. D. Q. has been demonstrated by the leading Hospitals, Hotels and Railroad Companies that the safest and most economical way to stop bedbug propagation is to use the new discovery.

turbans, the whole adding a note of great brilliancy to the costume. We may expect to see quantities of tulle and silks used in hats for some time to come, due largely to the ruined condition of the straw industry. Reboux combines tulle and lace with remarkable skill. A pretty example of her method is seen in an evening hat which has the crown tulle draped over the hair like a cap and allowed to fall in two soft loops at the back. To this is set a delicately plaited lace brim.

CUTAWAY SWEATER IN STYLE

Latest Fashion Is Dashing and Different From Many Others That Were Popular.

Sweaters grow prettier and prettier. From being a merely utilitarian article, donned for warmth in camp or on a sailboat, or after a game of tennis, the sweater has come to be the very pivotal point of the summer costume. Everything else is planned and purchased to match the charming sweater brought first of all on account of its stunning style or its appealing color. And, of course, there must be several sport costumes to go with the several sweaters every woman now has to have. There is the sweater for roughing it in camp, and there is the sweater for posing about on the country club veranda—and between are many other varieties of sweaters. Newest of the new is the cutaway slip-on. Needless to prophesy that this sweater will have a tremendous vogue. It is so smart, so dashing and so different from other sweaters that have gone before that its vogue is predestined. The gay little cutaway fastens on the shoulders with pearl buttons and buttonholes and neckline, armhole and turned-up lower edge are finished with crocheted stitch in contrasting color. The sweater itself is knitted—an easy stitch with which every woman who has knitted her sweaters is familiar. The ribbed section at the front of the waistline makes the little cutaway jacket fit like a glove and the cutaway extension is turned up and caught with buttons, making pockets into which nothing must be put, however, for fear of spoiling the trim line of the sweater.

MRS. WILLIAMS BIDS FAREWELL TO HEADACHES

Thanks to Nerv-Worth Her Nervousness Also Vanished.

Here is an entirely new and very strong signed endorsement. It was given a few days ago to Eric's Nerv-Worth by R. L. Williams of Erie, Pa.

"My wife has suffered from nervousness and severe headaches for a long time. Could not get anything to relieve her. Had indigestion and gas would form in her stomach and she would bleed badly. Was tired all the time and could not sleep, but tossed around all night. Was weak and all run down. I got her a bottle of Nerv-Worth and she took it as directed and now all is changed. No more headache, nervousness or restlessness at night. Eats well and digestion fine. No bleeding. She is gaining every day in strength and weight. We regard Nerv-Worth as a true friend in troubles of this kind and cheerfully recommend it."

How to Keep Baby Smiling and Well

See that the daily functions are regular and normal

YOU can't expect the little ones to be happy and playful when the head feels dull and the stomach bloated. The normal habit of children is to be happy and when you notice them cross and fretful you will usually find constipation is responsible.

Perhaps they have missed that daily function so necessary to comfort and health. Look at the tongue and see if the breath is bad. Watch for belching. These are the tell-tale symptoms of constipation. Tonight give a little of Dr. Caldwell's Syrup Pepsin, which you can buy at any drug store, and it will act in the morning and the troublesome symptoms promptly disappear.

Dr. Caldwell's Syrup Pepsin is a combination of simple laxative herbs with pepsin. Unlike the harsher physics it acts gently and without gripping so that while grownups can use it freely it can also be given to a tiny baby with perfect safety. Thousands of American families would not think

of being without a bottle in the house for the emergency arises almost daily when it is needed.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 5 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. E. Caldwell, 511 Washington St., Monticello, Illinois.

ASSIGNED CAR RULE SUBJECT OF SEVERAL INTERPRETATIONS

Railroad Men and Coal Operators Consider It Differently; Do They Count in Mine Ratings?

Assigned cars, the all-important subject in the coal regions these days, continues to be discussed by coal operators, says the Fairmont correspondent of Seward's Journal.

There is much speculation as to whether or not they count in the mine rating. Official Washington appears to be divided on the subject, just the same as coal operators.

C. W. Van Horn, Grafton, superintendent of the Monongah division, Baltimore & Ohio railroad, says it is his understanding that assigned cars given to the mines on a six-day fuel contract do not count against the percentage of the mine, but are only charged as assigned cars. This is interpreted to mean that they are given on a daily basis and at the end of each day the slate is wiped clean as to over and shorts. Some of the operators loading foreign railroad fuel will do so with the understanding that the railroads guarantee a car supply, make a forfeiture in case they fail to send cars or charge them more for the coal after the fuel of cars.

George T. Bell, executive vice president of the Northern West Virginia Coal Operators' Association, says assigned cars should count and points to the law on the subject. A section of the new railroad law provides the following:

"It shall also be the duty of every carrier by railroad to make just and reasonable distribution of cars for transportation of coal among the coal mines served by it, whether located upon its line or lines or customarily dependent upon it for car supply. During any period when the supply of

cars available for such service does not equal the requirements of such mines it shall be the duty of the carrier to maintain and apply just and reasonable ratings of such mines and to count each and every car furnished to or used by any such mine for transportation of coal against the mine."

While various constructions are put on the interpretation of the law, Mr. Bell says that the house committee aimed to eliminate the use of the assigned car in the coal regions and quotes the following from the report of the hearing on the subject, incident to the new railroad act:

"During federal control such a rule has been followed by the Director General and the committee follows the decision of the Interstate Commerce Commission and the present practice and has put in form of law what has been enunciated as proper practice. Paragraph 12 of the amended section incorporates in the statute a rule laid down by the commission and upheld by the Supreme court as to just and reasonable distribution of coal cars among the mines, thus avoiding any possibility of the recurrence of the evil of what is known as 'assigned cars.'"

About Rheumatism. People are learning that it is only a waste of time and money to take medicine internally for chronic muscular rheumatism, and about ninety-nine out of a hundred cases are one or the other of the varieties. All that is really necessary to afford relief is to apply Chamberlain's Liniment freely. Try it. It costs but 35 cents per bottle. Large size, 60c.—Adv.

For a Weak Stomach. As a general rule all you need to do is to adopt a diet suited to your age and occupation and to keep your bowels regular. When you feel that you have eaten too much and when constipated, take one of Chamberlain's Tablets.—Adv.

WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and soothe and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Pour three-quarters of an ounce of Mentholized Arcline into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat clean and healthy.

Nearly all druggists dispense Mentholized Arcline in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

"Danged if I know," he said drawlingly. "Maybe it does, and maybe again it don't. I was sorter patting this an' that together. I never got hold of any proof, but Lacy was shipped a pile of cattle out of Villa Real, all though why he should ever drive his cow there across the desert. Instead of shipping them here in Hanken or Taylorville, I never could understand. That's the principal reason I've got for thinkin' he an' Mendez are in cahoots, an' if they be, then the Mexican must have some kind of a camp out there in the sand where he hides between raids; though, damn it, I know what it can be." He paused reflectively. "I'll be like hunting a needle in the haystack. Jim, but I reckon you an' I'll have to get out that way, an' we might have luck enough to stumble onto the old devil."

Westcott changed his position, inadvertently bringing his head above the protection of the rock. Instantly there was a sharp report, and a speeding bullet grazed his hair, flattening out against the stone. The rapidity with which he ducked caused the marshal to laugh.

"Not hurt, are you? No. That was a rifle. Mike isn't such a bad shot with that weapon. He's over there behind that tree—see the smoke? If the cuss pokes his head out, I'll try the virtue of this .45; it ought to carry that far. Hah! there he is; I made the bark fly, anyway."

The afternoon wore away slowly, the two men realizing more and more clearly the nature of the siege. Their only safety lay in the protection of the rocks, as they were now entirely surrounded, and fired upon from either bank the moment either raised a hand. No attempt was made, however, to assault their position, nor did they often return the fire, desiring to preserve for future use their small supply of ammunition. Brennan remained watchful, but silent, brooding over his plans for the night, but Westcott became overpowered by fatigue and slept quietly for several hours.

The sun was already sinking behind the range of mountains when he finally awoke himself, and sat up. Brennan greeted him with a good-natured grin.

"Well, do you feel better, Jim?" he asked pleasantly. "Thought I'd let you sleep as long as I could, for we've got some job ahead of us. Sorry that ain't no breakfast wuttin', for I wouldn't object to a bit of ham bone myself. I reckon if Lacy comes up much longer, he's liable to win his bet; I'm plumb near starved out already."

"I'm afraid they've got us, Dan."

"Oh, I don't know; leastwise I ain't put on no white flag yet. You're game for a try at gettin' out o' yere, ain't yer, old man? I've sorter been reckonin' on yer."

"I'll take any chance there is, returned Westcott heartily, starting into the other's face. "Have you some plan?"

"Maybe 'tain't that exactly, but I've been dain' a powerful lot o' thinkin' since you was asleep, Jim, an' I reckon we might beat these fellers with a fair show o' luck. This is how I figure it out. That won't be no attack; that's a cinch. Lacy knows we can shoot, an' he also knows we're trapped, yere without food. The easiest thing is for us to wave us out."

"But, there are good men in this camp, law-abiding men," interrupted the miner. "Won't they take a hand?"

"Maybe they might if I was free ter get 'em together; but I ain't. Most o' 'em are out in the mines, anyway; they don't know which party is right in this rumple, an' they ain't got no leader. Lacy runs the town, an' he's got a big gang o' toughs behind him. There ain't nobody wants to buck up against his game. Of course the boys might get mad after a while, but I reckon we'd be starved plumb ter death long afore that happened. An' that ain't the worst uv it, Jim—the sheriff is Lacy's man. I wouldn't never dare turn you over ter him—not by a jugful."

"Then we are blocked at every turn."

"We sure are, unless we can dig out ourselves," gravely. "My notion is to get a fair start, drift out into Shoshone, where we'll leave no trail, an' then hit for over the line."

"On foot?"

"H—l, no! I ain't no such walker as all that. Come over yere; keep yer head down; now look out between these two rocks. Do yer see them cow-ponters hitched ter the rack-along-side o' the Red Dog? Well, they've been there for a matter o' three hours, I reckon, an' their riders ain't liable ter leave as long as that's an exception in town. They're XL men, and mostly drunk by this time. It's my aim ter get a leg over one o' them animals. Here's my scheme, an' I reckon I'll work. Naturally Lacy will think we'll try to get away—make a break for it in the dark. He'll have both them banks guarded, an' ther fellers will have orders ter shoot. He'd rather have us dead than alive. But to my notion, he won't expect us ter try any getaway before midnight. Anyhow, that's how I'd figure if I was in his place. But my idea is to pull one off on him, an' start the minute it gets dark enough so them fads can't see what's goin' on out yere."

"We'll fight our way through?"

"Not a sight, my son; we'll make it so softly that not a son-of-a-gun will ever know how it happened. When they wake up we'll be twenty miles out

in the desert, an' still a goin'. That's a big log clinging ter the upper end o' the rock. I saw it when I fust come over; an' 'bout an hour ago I crept back through that gully an' took a good look. A shove will send it floatin'. An' with a good pair o' legs to steer with, that ain't nuthin' to stop it this side the curve, an' I don't calculate any o' the ride brigade will be down as fur as that. It sounds blame good ter me, Jim; what d'ye say?"

Westcott's hand went out, and the fingers of the two men clasped silently. There was no need for more speech; they understood each other.

The night closed down swiftly, as it does in the West, the purple of the hills becoming black as though by some magic. There was a heavy cloud hanging in the Western sky, constantly sweeping higher, in pledge of a dark night. The banks of the stream became obscured, and finally vanished altogether, while the water ceased to shimmer an' turned to an ink blackness. Lights twinkled in the distant shacks, and the front of the Red Dog burst into illumination. Brennan chuckled, and pointed his finger at the glare.

"Lacy ain't forgettin' the profit in all this," he whispered hoarsely. "The boys are goin' ter be dry, an' he'll sell 'em all they want—wouldn't mind if I had some myself. Is it dark enough, mate?"

"The sooner the better."

"That's my ticket. Come on, then, but don't make a sound; them lads are more liable to hear than they are to see us. Let me go first."

The log was at the other end of the little island, but there was a considerable rift in the rock surface, not deep, but of sufficient width to permit the passage of a body. The jagged stone made the way rough in the dark, and Westcott found himself at the upper extremity, gasped and bruised by the contact.

Brennan lowered himself into the water, assisted in the downward climb by some low, tough bushes whose tendrils clung tenaciously to the smooth rock. Westcott followed silently, and found footing in about three feet of water, where it swirled around the base of the island. Brennan put his lips close to his companion's ear.

"Got yer cartridges tied up? That's all right; hand 'em over. You hang on to the outside, an' I'll push out. If yer have ter paddle, ter keep in the current, don't ter yer hands, or feet come to the surface—understand?"

"Certainly."

"All right then; are you all set? Holy smoke, this is going to be some yacht ride."

The log did not even grate as it loosened its slight hold on the rock, and began the voyage down-stream. The current was swift enough to bear

He's trucking down Benson way, but is liable to have some grub stored inside. I was countin' on this for our commissary department. Come on, Jim; time is money just now."

The door was unlocked, and in less than ten minutes they emerged once more into the open bearing their spoils—Westcott, a slab of bacon and a small frying pan; Brennan a paper sack of cornmeal, with a couple of specimens of canned goods. He had also rescued a gunny sack somewhere, in which the things were carefully wrapped, and made secure for transportation.

"Didn't feel no tobacco, did yer, Jim?" the marshal questioned solicitously. "I reckon not, though; ol' Beecher never would leave nuthin' like that lyin' round. Well, Lord! we ought ter be thankful fer what we've got. Now, if we can only get away with them hosses."

They wormed their way forward to the edge of the road through a fringe of bushes. Westcott led with the bundle. Except for the sound of distant voices and an occasional loud laugh, the night was still. They could almost hear their own breathing, and the crackle of a dry twig underneath the soles of their shoes. Like the report of a gun, Crouching at the edge of the road they could see fairly well what was before them, as revealed by the lights shining forth through the dingy windows of the saloon. A ham of voices echoed out into the night, but the platform in front of the door was deserted. Occasionally some wanderer, either entered or departed, merging into the crowd within or disappearing through the darkness without. To the left of the building, largely within its shadow, stretched the hitch rail to which were fastened fully a dozen cow-ponties, most of them revealed only by their restless movements, although the few nearest the door were plainly enough visible in the reflection of light. Brennan's hand closed heavily on the arm of the other.

"We'll pick out the two critters furthest from the light," he muttered, "an' trust ter luck. We'll have to lead 'em a ways afore we mount. Shall we try it now?"

"The sooner the better."

"That's me. Blamed if I thought I'd be a hoss thief, but when a feller associates with 'Bill Lacy there's no knowin' what he will come to. He better try the other side o' the road, Jim."

"They were in the flicker of light for scarcely an instant, merely two darting shadows, vanishing once more swiftly and silently into the gloom. Nor were they much longer in releasing the two cow-ponties. Westcott tied his bundle to the cantle of the saddle

although it moved slowly and noiselessly on its way. The two men deeply submerged on either side, with heads held rigid against the wet bark, were indistinguishable. Out from the deep shadow, Brennan gently controlled the unwieldy affair, and keeping it as nearly as possible to the center, by the noiseless movement of a hand under water. No alarm greeted its progress, and at last, confident that they were already safely below the extent of the guard line, the two men, clinging to its wet sides, ventured to kick out quietly, and thus hasten its progress. It came ashore at the extreme end of the curve, and, after a moment of intent listening, the voyagers except on the sand, and in whispers discussed the next effort of their escape. The belts were unstrapped from about the log, reloaded with cartridges, and buckled around dripping waists, before they clambered cautiously up the low bank. The road was just beyond; but between them and it arose the almost shapeless form of a small house, a mere darker shadow in the gloom of the night.

"Where are we?" questioned Westcott.
